COMPREHENSIVE AJCC KPI

■ Accounts Created Q2 Goal: 450
 ■ BNA's Performed Q2 Goal: 180
 ■ Services Rendered Q2 Goal: 150

NON-COMPREHENSIVE AJCC KPI

■ Accounts Created Q2 Goal: 225
 ■ BNA's Performed Q2 Goal: 90
 ■ Services Rendered Q2 Goal: 75

STATS Questions for Feb 5 Meeting | Economic and Business Development (EBD) Team

1) If your AJCC is exceeding its business services goals, what is helping you do so?

Current KPI measured: services provided, business needs assessments completed and new businesses registered.

2) If your AJCC is underperforming on its business services goals, what are your biggest barriers?

3) Assuming there is no additional funding available, how can WDACS/EBD better help you reach your business services goals (as set forth in the Directive)?

4) For underperforming AJCC's: Have you reached out to WDACS and the County for help in meeting goals and assisting businesses? If you have not reached out, what is stopping you?

5) Do you have access to PowerBI? Do you check it regularly? Would you prefer additional updates on performance?

6) How often do you (specifically directors and program managers) meet with your BSR staff? Do you specifically discuss performance vis-à-vis data entry and LaunchPad?

7) Do you emphasize certain services (e.g. OJT, ETP, and WOTC) when discussing business services with your BSR staff? How do you determine which services (E-Codes) you emphasize?

8) How do you think about the connection between business engagement - as shown through services entered into LaunchPad - and job placements? How do you emphasize that connection with your BSR staff?

9) How does your management carve out time for your BSRs for data entry (or do you not)?
