Quarterly Report

FY 2019-20 Q2

7/1/2019 - 12/31/2019

DATA DICTIONARY

Base Wage Data - Base wage data is obtained through Unemployment Insurance data and is through 9/30/19. 2nd quarter of wage data will be available by 3/31/20 because of the 6 month delay.

Baseline measure - The data is captured in current reporting period to develop future goals.

Employed Participants - Participants who have been placed in unsubsidized, permanent employment, as recorded at closure or follow-up (supplemental data) or through base wage data.

Employment Sector - Sectors are defined by the NAICS (North American Industry Classification System) code entered when a placement is recorded at closure, during follow-up or through base wage data.

Employment Type- High growth sectors for LA County as defined by LAEDC's 2016-2021 Jobs report published June 2017.

Hourly Wage – Only from supplemental data; base wage data does not include hourly rate as wage data is reported quarterly.

Occupation and Occupation Groups – Derived from ONET codes entered in employment records at closure or follow-up. Please note that ONET codes are not available for base wage employments as base wage only contains NAICS codes.

Placed Participants - Participants who have been placed in unsubsidized, permanent employment, as recorded at closure or follow-up (supplemental data) or through base wage data. Includes WIOA Youth post-secondary and advanced training placements.

Served Participants – Participants who received services in the time period, including carryovers from prior periods and those receiving follow-up services.

Supplemental Data - Employment-related indicator information from tax docs, payroll records, employer records, etc., provided by participants to case managers.

Trained Participants - Participants who have successfully completed a training activity or are currently receiving training during the time period.
